

Lexis[®]PSL

Work smarter and with more confidence

Lexis[®]PSL is the online practical guidance service from LexisNexis, giving busy practitioners the what, how and why of the law.

We are proud to be launching our extended suite of practice areas which have been written by experts for experts. There is no substitute for practical experience – and we are delighted that so many leading people at the top of their profession, across so many fields of specialism, are working with us to ensure that together we continue to meet the needs of the fast-changing legal world.

As competition increases, there's an even greater need to stay on top of new developments, work more efficiently, and be confident that you're getting things right. Our expert authors and Board members, in addition to our internal team of experienced lawyers, carry on the LexisNexis heritage of producing relevant, authoritative material practitioners can trust.

We're also delighted to be showcasing the new, fully fledged version of LexisPSL, with its fresh, intuitive interface, and clean design.

LexisPSL provides a range of enhanced practical features – simple, more targeted searching, up-to-the-minute news and 'so what' analysis, and time-saving calculators, tools, flowcharts, checklists and searchable, automated forms and precedents. The guidance notes are deliberately short and snappy, with the key benefit of more than 200,000 links directly to the underlying authority: the primary sources and expert commentary from our leading titles. The aim is to provide busy practitioners with everything they need to work profitably, day to day. Or, in other words, the full package of the what, how and why.

All this is available across the 25 practice areas that matter most to our customers
